

### How Istation Supports High-Dosage Tutoring (HDT)

Districts that are looking to pair high-quality instructional materials with their tutoring programs can use Istation to support the instructional strategies of their tutors:

- Tutors can use **formative assessment** data from Istation's Indicators of Progress (ISIP™) to identify a student's skill level and group students based on abilities.
- **Targeted instruction** gives students exactly what they need through interactive lessons during, before, or after a tutoring session.
- Tutors can leverage the **teacher resources** within Istation, which support small-group instruction and allow educators to customize tutoring sessions with targeted interventions.
- Professional services for districts and schools that include (customized pricing is available):
  - ◇ overview of Istation products
  - ◇ accessing digital and print teacher resources
  - ◇ ongoing coaching and support

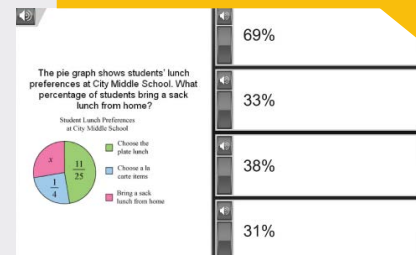

### Proven Effectiveness

Research has shown that HDT can support learning gains and help students get back to grade-level learning in an accelerated manner. The [research recommends](#) the following keys to successful tutoring programs:

- three or more sessions per week (30-60 minutes per session) during the school day or immediately after school (Elementary students may benefit from shorter, more frequent sessions)
- duration of at least 10 weeks
- one-on-one or small groups of three or four students
- consistency and building a relationship between tutor and students
- high-quality instructional materials aligned with classroom learning
