

Dear Families,

I am excited to share that our school uses Istation's Indicators of Progress (ISIP™) literacy and math assessments to help us best understand your child's skills and meet their needs.

What is ISIP?

ISIP is an online assessment that will help us determine your child's strengths and areas for growth, personalize their learning, and monitor their progress throughout the school year. ISIP allows us to meet your child where they are and provides us with data to inform instruction.

ISIP is a computer-adaptive assessment that adjusts questions based on student responses. The purpose is not to give your child a score or grade but to determine how to best support their learning.

Students have different areas of strengths and opportunities for growth, and it is important to understand how your child performs in specific learning areas, or skills/ domains . This helps teachers know which skills to build and where to focus their support.

What happens next?

The ISIP assessment will provide results that help me identify your child's strengths and determine the next steps for instruction. I look forward to sharing these results with you throughout the year and providing a learning experience that will engage your child while teaching essential skills and concepts.

If you have any questions about ISIP, please do not hesitate to contact me or the school. You can also learn more about ISIP by visiting www.istation.com.

Thank you for your continued support and for being a partner in your child's learning!

Sincerely,
